## CC Officially on Record for a Wet Millwood

The expanding campaign for a "wet" Millwood dam gathered momentum here last night when Hope chamber of commerce directors voted unanimously for the project, joining Texarkana and Magallowa for a modified dam that would provide ample water for municipal, industrial and agricultural purposes.

The position of the chamber was three-fold:

1. Definitely in favor of a "wet" Millwood.
2. Unalterably opposed to a "dry" Millwood.
3. No opposition to upstream dams. It favors the upstream dams with a modified Millwood that would provide water for municipal, industrial and agricultural purposes.

The firm stand of the chamber came on a motion by Harrell H. Hall, seconded by Norman Moore, which led to the unanimous support of the project.

The chamber, thus officially threw its support behind the Southwest Arkansas Water District to take the necessary steps to guarantee that the dam will contain adequate storage water for interested Southwest Arkansas towns.

Prior to the chamber vote, three speakers appeared before the group and brought the directors up to date on the present developments of the project. The speakers were:

George W. Peck, vice-president of the Southwest Arkansas Water District; Vincent W. Foster, long-time leader for construction of Millwood; and Attorney C. V. Nunn, Jr., who aided in the promotion of the Southwest Arkansas Water District.

Said Mr. Peck: "The Little River basin is big and vast, and is one of the last major basins that lies undeveloped. Congress authorized the construction of Millwood back in 1946 primarily for flood control purposes. Delays were encountered, but Millwood is going to be built, and it is our position that the dam should provide a water supply."

"With the passing of the years, water has become one of our greatest natural resources. It's the key to industrial development, and ultimately Millwood benefits could become greater than a producing oil field in Hempstead county. It's bigger than we ever dreamed about and now is the time to present a solid front in favor of the project."

Said Mr. Foster: "The potential benefits of a wet Millwood dam are actually fantastic. It's quality of water is unsurpassed anywhere in the nation, and that kind of water is of course highly preferred by thirsty industry, now moving into the South. Water engineers have studied the quality of Little river for a number of years, and because of the quality and an abundant supply, this places Southwest Arkansas in a position for great economic advancement."

"Daingerfield, Texas, in the northeast Texas water district is a town that is developing a water supply. About 10 years ago this was a town of about 800 population. Today it is a town of 4500, and it is predicted that within the next ten years it may be a town of 25,000 population."

The northeast Texas Water District has received more than 200 inquiries from industry because of its water supply from the Farrow's Bridge reservoir."

Said Mr. Nunn: "Most of you know that Hope was the birthplace of the Southwest Arkansas Water District. This organization is pushing the campaign in several Southwest Arkansas counties and I am glad to report that much progress is being made."

"We are urging the public to study this matter and support the efforts of the water district. A wet Millwood dam will mean much to us. In recent years there has been a growing demand all over the nation for water. This demand is coming from three different sources—municipal, industrial and agriculture," Mr. Nunn declared.

Under the terms of the present report from the Corps of U. S. Engineers the Millwood dam project, just west of Saratoga, would be cut to three-quarters its original authorized size, its gates left open except in time of flood emergency, making it normally a "dry" reservoir, and six small upstream dams would be authorized—three in Oklahoma and three in Arkansas, all on the Little River or its tributaries. This report must be changed to include water in Millwood dam.

## Teachers Hear of Millwood, Retirement

"Arkansas pays the most liberal retirement benefits, based on accessible salary, of any other retirement systems in the United States," said Hoyt Pyle, executive director of the Arkansas Teacher Retirement System, when he addressed the Hempstead County Classroom Teachers Association Monday.

A question and answer session followed his talk.

Approximately fifty teachers and guests met at Oglesby School, where the meeting was opened with prayer by Mrs. J. F. Burroughs. Mrs. Julia Messer, introduced a vocal trio, composed of Mrs. Harrell Hall, Mrs. Sydney Fricks and Mrs. James McLarty, who sang, "By the Bend of the River," with Mrs. B. C. Hyatt at the piano.

B. N. Holt, Secretary of the Hope Chamber of Commerce, in a most interesting and informative manner, traced the legislation of the Millwood Dam and pointed out the advantages of such a project to this community.

In the short business session, which preceded the program, Miss Mary Margaret Haynes, president, presided. A report was heard from Miss Mamie Bell Holt, chairman of the nonfiling committee, who submitted the following officers to serve in the year 1956-57: Miss Gwendolyn Dean, Sec-Treasurer; Mrs. Homer Reeves, reporter.

Charles F. Allen, of Little Rock, a planner in the Arkansas Teacher Retirement System, was a special guest.

## Believes One Way to Enjoy Life Is Pick Your Tensions and Learn to Enjoy Them

BY HAL BOYLE  
NEW YORK (UP)—Curbstone reflections of a pavement Plato: One way to be happy in this life is to pick your own tensions and learn to enjoy them.

This is a tense century. Tension becomes one of the busiest words in the American vocabulary. The current issue of Newsweek magazine, in a notable article on the subject, estimates that 25 per cent of the nation's industrial force is emotionally upset and frustrated, and puts the annual cost in lost wages, medical bills and damaged machinery at three billion dollars.

Some toll! The waste from this kind of tension would build 250,000 homes costing \$12,000 each.

Not just one year. Every year. Frigidity as this estimate is, it is no indictment of tension in itself. Tension is as essential to the normal human body as it is to the functioning of a rubber band or a watch spring. Without tension life would be as dull and monotonous as a piece of string.

The basic trouble with our tense times is that we have let our tensions run wild, like a bedspring that suddenly bursts its springs and goes "boing, boing, boing."

There are two kinds of tensions — the good and the bad. A good tension, such as one we get from playing a game or watching a well-acted drama, is followed by

## Grace to Stay for the Awards

HOLLYWOOD (UP) — Princess-to-be Grace Kelly will wait until after the Academy Award presentations March 21 before leaving for New York and her wedding in Monaco.

The blonde actress, who won an Oscar last year for "The Country Girl," will make the presentation to this year's best actress.

On the set yesterday of perhaps her last picture, "High Society," she told newsmen she originally planned to leave March 15 for last-minute trousseau shopping in New York.

"I'm so far behind now in preparations that I won't even have time for last-minute details," she said.

Asked to comment on Prince Rainier's recent statement in New York that she will retire from films after their wedding next month, she replied:

"Anything His Highness wishes is fine with me."

## Comparable Gas Figures Are Not Available

LITTLE ROCK (Special) Although the Arkansas Louisiana Gas Co., in published announcements this week stated it was ready to enter into five-year contracts with industrial gas users at 22 cents per thousand feet "in an effort to bring industry to Arkansas," company officials were unable immediately to supply comparative figures to indicate the advantages, if any, between the contract price Ark-La is offering and the comparable rates in other areas in competition with Arkansas for new industry.

The officials, both at Ark-La and at W. R. Stephens Investment Co., which purchased controlling interest in Ark-La in late 1954, confirmed an impression that the advertised rate is a simplification. Industrial users are classified by the amount of their gas consumption, and their contract rates are based on a sliding scale.

The announced 22-cent rate represents an average and is based on a monthly minimum charge. Gas company officials were not prepared today to make public the basic terms of the offered contracts.

William P. Rock, executive director of the State Industrial Development Commission, approved the gas company's announced rate and said that he thought the contract rate offered by Ark-La was particularly attractive in comparison with anything to the north of Arkansas and was comparable to "anything around" the state. His agency, however, had no comparative rate data available.

Since the acquisition of controlling stock in Ark-La by the Stephens Investment Co., the gas company has been granted two rate increases which have embroiled it in court actions with industrial users. At the same time, however, it has maintained rates for residential users at a level which enabled it recently to make another public announcement, this one pointing out that while 9,000 cubic feet of gas costs a New Orleans ratepayer \$5.00, an Ark-La system customer pays \$4.88.

An admission that this rate is subject to upward revision in the foreseeable future, if the Arkansas Public Service Commission, which has thus far been amenable to Ark-La rate increases, approves, was drawn from W. R. Stephens, head of the investment company bearing his name, in a discussion of gas company plans and prospects.

At the present time the company has existing contracts which guarantee it a portion of its gas supply at a price of 10.5 cents at the well-head. This supply, Stephens said, is being used to service domestic customers. Industrial users are getting the gas for which, he said, the company is paying up to twice as much. Eventually, however, domestic users will have to pay higher rates just as industrial consumers must now.

Three industrial contracts, which, Stephens said, will utilize 70 per cent of Ark-La's output, have been signed at a rate of 17.9 cents per thousand cubic feet for 2½ years with an increase to 20 cents for the balance of their five-year terms. One of these contracts, with Reynolds Metals Co., a protestant against the PSC-granted rate increases, took Reynolds out of a court action now pending in Pulaski Circuit court. The other two which signed with the gas company are the Arkansas Power & Light Co., and Pan-Am Southern Corporation. Before it entered into the new contract with Ark-La, AP&L paid the gas company 14.2 cents per thousand cubic feet of gas.

Stephens pointed out that, nevertheless, the new contract price offers Arkansas industrial users an advantage that competitors don't enjoy. He displayed statistics to show that in Tennessee Aluminum

## Violent Storms Strike Many Parts of Nation

By The Associated Press  
Violent March storms struck devastating blows in many parts of the nation today.

Tornado winds and thunderstorms swept through the Ohio Valley today after killing at least one person, injuring more than 30 others and causing extensive property damage in three Midwest states last night.

The storm, accompanied by hail in advance of a strong cold front, brought warnings of tornadoes to many Midwest and south-central areas.

A snowstorm, with gusty winds, hit sections of the Rockies, the Central Plains and in the upper and middle Mississippi Valley.

Showers and thunderstorms also struck the lower Great Lakes region and into New England.

The vicious storms in the mid-continent, striking most damaging blows in communities in Indiana, Illinois and Missouri, were balm on the clashing of extremely warm air from the Gulf of Mexico and freezing air spreading across the great Lakes and the Northeast.

The southeast part of the country had summerlike weather. Temperatures rose as much as 20 to 25 degrees as the warm, Gulf air moved northward to the Allegheny Mountains.

Tornadoes struck three communities in central Indiana and one in east central Illinois. Violent windstorms lashed other towns in the two states and in sections of Missouri.

Heaviest hit by the twisters was Marion, Ind., a city of 30,000.

## Kiwanians Are Urged to Help Red Cross

A compassionate plea for support of the American Red Cross was made before Hope Kiwanis Club Tuesday noon by Dan Clark of Cullendale, field representative of the national organization.

"We are indeed fortunate to be living in America, the only nation in the world which helps unfortunate people in times of distress and disaster," declared the speaker.

"The American Red Cross is an organization of people who want to help people," Mr. Clark said in tracing some of the history of the 75-year-old national organization. In Arkansas, the Red Cross has spent more than two million dollars for disaster relief, mainly caused by tornadoes and floods, in the past ten years.

Dr. Lloyd Guerin has been appointed county chairman for 1956, and the annual drive will begin March 19. The county's quota is \$4940.00 of which one-half of the total will remain in the county, the second half going to the national organization.

He is survived by six brothers, Joe and Arthur Rogers of Hope, Tommy of Texarkana, Clyde of Houston, Grady and Leonard Rogers of Hot Springs; six sisters, Mrs. Finis Odom of Patmos, Mrs. Lois Wheeling of Patmos, Mrs. Effie Barr, Mrs. Maude Cox, Mrs. Lillian Burns, Mrs. Timmie Barr all of Houston.

Funeral services will be held at 10:30 a. m. Thursday at Union Church in Nevada County by the Rev. Mr. Ault. Herndon-Cornelius will be in charge.

REDESIGNING PASSES

NEW YORK, (UP) — A Brooklyn man put the City Transit authority in a tizzy yesterday with the boast that he rode a subway for a month at the price of four cup cakes.

The man discovered that passes used by transit authorities looked considerably like the package cover design of his favorite cup cakes so he cut out a piece of the cover and used it as a pass to get through the subway gates free.

The transit authority said it is redesigning its passes.

## All Around the Town

By The Star Staff

Say all city vehicles average around 15 miles per gallon of gas, then city-owned cars etc. traveled some 43,395 miles during the month of February... according to Mayor Olsen in a report to the Council last night city vehicles consumed 2,893 gallons of gas at a cost of \$697.21 or approximately 24 cents per gallon... some 93 quarts of oil were used in the vehicles at a cost of \$19.53 or 21 cents per quart... seems the city is doing all right on prices.

In discussing fine boxes for parking meter violators last night Mayor Olsen suggested that fines be reduced from 50 to 25 cents, offering the theory that more of them would be paid... this the council didn't take to readily but tabled action to consider the matter.

Miss Sara Lauterbach has been named to the "B" average honor list at Texas State College for women at Denton... a senior costume design and fashion illustration major, Miss Lauterbach is resident at 503 S. Main, Hope... she is president of Alpha Chi, honorary fraternity for upperclassmen and vice-president of the senior class... she is also president of TSCW Wesley Foundation, Methodist student organization and is a member of the Phi Kappa Phi literary-social club.

## No Indictments in Hoxie Case

WALNUT RIDGE, (UP) — The Lawrence County Grand Jury failed to return any indictments yesterday in a \$3,500 shortage of Hoxie School District cash funds, but it sharply criticized the school board and former Supl. K. E. Vance for careless handling of public money.

Prosecutor W. J. Arnold, who investigated the case at the demand of pro-segregationists, brought it before the Grand Jury. He had said that the shortage was made up when the board allowed \$2,000 to Vance for expenses, and the ex-superintendent repaid \$1,500.

After his investigation, Arnold said that he didn't plan to take action against Vance in the absence of proof that the official benefitted personally from the shortage. Arnold said the shortage resulted from Vance's policy of making small loans to himself and other school employees.

The plan was first submitted at the last regular council meeting, but no action was taken. Mayor Olsen brought it to a head last night by asking the council to vote one way or the other. The vote was 5-4 in favor of the motion.

In other discussion, Mayor Olsen announced that the new city water well would be drilled back of the Gunter Lumber Co. The land owned by Gunter, will be given to the city at a cost of \$75.

A bid by Eddie West, painter, to repaint the Water and Light plant roof, was agreed on; repairs to the city's ditchdigger will be contracted locally, alleged polluting to Caney creek, caused by sewage from the Proving Ground, was passed without action; the bid of B. R. Hamlin Motor Co. for a two-ton truck to be used by the Street Department was accepted; it was voted to employ another man as meter reader for the W&L Plant and step up the other man as the line crew with the current meter reader joining the crew, and the matter of airport improvements was turned over to the airport committee.

Purchase of 28 meter fine boxes to be placed throughout the downtown area was discussed at length. The boxes will allow meter violators to pay fines without going to the police station. Action was delayed.

Mayor Olsen told the group the city garage is operating on a sound basis and showed a profit during the past month.

The group ordered the city engineer to condemn four houses, two on West Third and two on Shover Street as fire hazards.

Teen-time 4-H Club Group Organizes

Fourteen girls met at the home of Betty Blackwood on Tuesday afternoon at 4 p. m. for the purpose of organizing the Teen-time 4-H Club. The following officers were elected:

President, Betty Blackwood; Vice President, Juanita Messer; Secretary-Treasurer, Margaret Lauterbach; Reporter, Cynthia Forester; Song Leader, Dorothy Smith.

The girls divided into two groups to hold a contest in which the losers will treat the winners to a party.

Those in the groups are Sharon Fielding, group captain; Cynthia Forester, Margaret Lauterbach, Dorothy Smith, Pam Aslin, Helen Ruth Ramsey and Judy Easterling. Group 2, Charlene Sangalli, group captain; Tonna Taylor, Barbara Caston, Denny Hefner, Juanita Messer, Cherry Myers and Betty Blackwood.

A demonstration on making house shoes was given by Mrs. Lorraine B. Wylie, home demonstration agent. Each girl was given a pattern for making the shoes.

The next meeting will be held at the home of Cynthia Forester Tuesday, April 3, at 4 p. m. At that time each girl will make a dress, let, Pam Aslin and Juanita Messer assisted Mrs. Wylie in serving refreshments.

LITTLE ROCK (UP) — The city council last night approved a plan to set up a purchasing department and centralized warehouse. The vote was four for and four against and the Mayor broke the tie in favor of the motion.

Under the plan all city purchases will go through one department. A stockpile will be built up in the city warehouse which will be kept by one man who will receive and issue all items to various departments. The motion called for no expansion of city facilities or help in setting up the program.

The council was pretty well agreed on all purchases being made by one department but stockpile members balked at the stockpile idea. They pointed to many items already stockpiled in the city warehouse which would never be used. The group was also against a proposed loading dock at the old Ellis building and establishment of two warehouses.

The plan was first submitted at the last regular council meeting, but no action was taken. Mayor Olsen brought it to a head last night by asking the council to vote one way or the other. The vote was 5-4 in favor of the motion.

today with prices leaning down in  
the early afternoon.  
Trading was relatively light.  
Biggest feature was the start of  
trading in Ford Motor Co. stock  
on the New York Stock Exchange.  
In a flurry of ceremony and trad-  
ing activity the stock opened at  
62 on a block of 1,300 shares. It  
was followed by 500 at the same  
price and then 100 shares at 62.  
Thereafter, Ford traded moderat-  
ly in a range of 61 to 62½.  
An estimated 7,800 shares changed  
hands in the first two hours of  
dealings. The stock closed yester-  
day in the over-the-counter market  
at 6½ bid and 62 offered.

Stephens stated that his interest  
in Ark-La is basically an interest  
in helping Arkansas. His first pro-  
posal to the Securities and Ex-  
change Commission, which won  
him an exemption from the Pub-  
lic Utility Holding Company Act in  
December, 1934, envisioned, among  
other transactions, a public dis-  
tribution of Ark-La's common  
stock. This stock, Stephens said  
he hoped would be held mainly  
by Arkansians.

However, in an answer to a SEC  
order which set up a hearing Feb-  
ruary 20 to determine whether the  
holding company exemption should  
be revoked (in which a decision  
has not been made public to date),  
the Stephens Investment Co., re-  
vealed that it had sold 970,277  
shares of Ark-La stock to Union Se-  
curities Corporation of New York  
and its president, Joseph H. King.  
The stock sale included 89,207  
shares issued pursuant to a 10 per  
cent stock dividend in December,  
1935. In its 1934 application to the  
SEC for holding company exemp-  
tion, Stephens disclosed it had pur-  
chased 1,058,189 shares of Ark-La  
common stock, representing at  
that time, 51.5 per cent of all out-  
standing shares. The December,  
1935, dividend should have in-  
creased the Stephens' holdings to 2,  
154,007 shares. The sale to Union  
thus would result in a reduction to  
1,183,730 shares. The Stephens  
letter to the SEC did not mention  
any other stock sales by Stephens.

The communication noted, how-  
ever, that former Cities Service  
Corporation men on the Ark-La board  
of directors had been replaced by  
"substantial businessmen from  
the territory," all of them "sub-  
stantial stockholders." The board  
members now are A. H. Weiland,  
Shreveport, La.; Edward B. Kelley,  
Pittsburgh, Pa.; J. C. Hamilton,  
president, Shreveport, La.; Wil-  
liam C. Spooner, Shreveport,  
La.; C. J. Abney, Marshall, Tex.;  
Robert Davis, St. Paul, Minn.,  
and, from Arkansas, Raymond Reb-  
samen and Joe Hardin, Little  
Rock; W. T. Murphy Jr., Texar-  
kana; Emon Mahony, El Dorado  
and Lloyd Spencer, Hope.

In the further interests of Ark-  
La ratepayers, Stephens also said,  
Ark-La has cut out "everything  
that cost money." In this category  
were most appliance sales, coun-  
try club memberships and the  
like, participating in any type of  
social activity, and advertising.

The number of U. S. farm  
holdings of 1,000 or more acres  
has increased 80 per cent in the  
last 35 years.

purposes:

To elect one director for a term  
of 3 years, Post No. 1  
To elect one director for a term  
of 3 years, Post No. 2

To submit the question of voting  
a total school tax of 35 mills, which  
includes 13½ mills for the opera-  
tion and maintenance of the  
schools, 19½ mills previously  
voted for the payment of bonds now  
outstanding, and a continuing  
building fund tax of 2 mills for a  
proposed bond issue of \$125,000,  
which will run approximately 20  
years, to be issued for the pur-  
pose of erecting and equipping new  
school buildings and making im-  
provements and additions to pre-  
sent school buildings, and said build-  
ing fund tax will constitute a con-  
tinuing annual levy until the prin-  
cipal and interest of the proposed  
bonds are paid in full, with the  
provision that the surplus each  
year arising from the building fund  
taxes, after providing for principal  
and interest maturing that year and  
the next six months' interest on all  
outstanding bonds, may be used for  
calling bonds for payment prior to  
maturity or for other school pur-  
poses. In addition, the new bond  
issue will be secured by a pledge of  
the surplus revenue derived each  
year from the building fund taxes  
previously voted for bonds now  
outstanding.

a feeling of both physical and emotional release. The tension releases itself; we end up relaxed.

A bad tension, such as the kind we build up while pursuing an impossible goal or doing something we know is foolish like chasing our friend's wife, only tangles our emotions deeper. We tie ourselves inextricably in knots of our own devising.

Therefore, we have no one to blame but ourselves.

How many of our tensions are

Mr. and Mrs. Emmette Parham and children of Benton were the guests Sunday of her parents, Mr. and Mrs. C. G. Gordon.

Tommy Cox has returned to Baylor University, Waco, Texas, after a weekend visit with his parents, Mr. and Mrs. Claud Cox.

Mrs. Lela Hays and Mrs. Dan Pittman were the weekend guests of Mrs. Jess Morris in Greenville, Miss.

Mrs. J. W. Bradley and Mrs. Charlie Henry spent Saturday in Little Rock and visited Garland Starnes who is seriously ill at St. Vincent's Infirmary.

caused because we let our neighbors—of our envy of our neighbors—determine our own ambitions.

Just because Jones went into debt and worried himself into an ulcer buying a big car he couldn't afford, is it really necessary for us to buy a bigger car, go deeper into debt, and wind up with a double ulcer. Where is the reward in that kind of tension.

Our own infantile attitude toward what we think we want in life is also a major source of the wrong kind of tension.

Perhaps all men yearn to grow up and earn a million dollars and marry the prettiest girl in town. But the fact remains that all men can't. There aren't that many millions of dollars or that many pretty girls.

But there are plenty of good jobs that pay a man a living wage, and a girl doesn't have to win a beauty contest to make an enduring wife.

As a people we aren't really "success happy." We are actually more often unhappy because we don't know what real success is. A spoiled child gets tense and throws a tantrum because it can't get what it thinks it wants when it wants it. Most of our malignant tensions reflect the fact that we have remained spoiled children instead of growing up.

True success lies in the ability to discard goals that we can't achieve or that fail to make us happy. The art of living lies in an intense interest in things that add to our pleasure and enjoyment of life.

If you feel yourself acquiring

an ulcer over tensions, the thing to do is to take a long cold shower, then look in the mirror and ask yourself:

"Is the fun of what I'm trying to do worth the ulcer I'm getting?"

If it isn't, give it up and switch to a new tension—and see if you don't feel better.

Calendar of Events

Mrs. Mary Chambers (California in the State Rally) will sponsor a weiner roast on the lawn at Bethel A. M. E. Church Saturday night March 10. The public is cordially invited to attend.

Oak Grove Church News

Practically all of the teachers of the Sunday School were present and a very interesting lesson was participated in by all who were present.

After Sunday School, the prayer service was conducted by Brothers Wade and Duffie. The young choir is progressing nicely. During the offering, a donation was taken for the Gospel Hour program. Although our number is small at times, there are some courageous, busy workers in the church. Rev. E. N. Glover, Pastor.

Birthday Celebrations

Jerral Wayne Lawson celebrated his third birthday on March 4, the home of his grandparents Mr. and Mrs. Henry White. The Hostesses, Miss Adell White, Mrs. U. N. Coleman, Mrs. J. P. Powell and Mrs. Florine Lawson served punch, ice cream and cake to the following guests: Charles Coleman, Jausa Pat Powell, Charles Cooper, Stanley Wilson, Kenneth, Larry and Darrel Muldrow, Jasmine Ruth and George K. Coleman, Jr., Lynda Gamble and Ronald Lawson. Jerral received many useful gifts.

Mrs. Beatrice Muldrow celebrated her birthday anniversary with a party given by her brother, Mr. Jeff Cheatham of Dallas, Texas, at her home in McNab, Ark., February 29.

Games were played. Barbecued ribs, potatoe chips, frites, candy ice cream, punch and cake were served from the dining room table that was covered with a white linen cloth and centered with white and pink flowers and lime green, white and yellow cake.

The guest list included: Mrs. Suttle Brunson of Chicago, Ill., Mr. Jeff Cheatham and Howard Muldrow of Dallas, Texas, Mr. and Mrs. John Hendrix of Fulton, Miss Jewel Wright of Fulton, Mrs. Parthenia Bowles, Mr. and Mrs. Jimson Muldrow, Mr. and Mrs. Floyd Scott, Mrs. U. Easter Smith, Mr. and Mrs. Moton Walker, Mr. and Mrs. Lee Cheatham, Mr. Palestine Muldrow and daughters, Mr. and Mrs. George Stagers, Mr. Joe Mercer, Mr. and Mrs. Luke Muldrow, Mrs. Josie Young, Mrs. Idella Cheatham, Marice Reese Johnson, Clyde Johnson, Ruthie Mae Smith, Cleo Adams, Leedell Muldrow, Louis Muldrow, all of McNab, Helen Marie Cannon, Miss Alma Lafayette, Miss Mary Lee Lafayette, of Fulton, Irene Stewart of McNab, Sterling Marshal of Tolette and Thomas H. Hill of Schaaf, Ark. Many gifts were presented to the Honoree and a pleasant evening was enjoyed by all.

Correction

The Yerger High School Choir will appear in Concert at Bethel A. M. E. Church Sunday March 11 at 7:30 p. m., instead of Friday March 9 as announced in Tuesday's column.

You'll really miss a rare treat if you don't attend the Charmet's presentation of "State Show" Friday night March 9, in the Yerger High School auditorium. If you want a choice seat, better be on time, because the curtain goes up at 7:30 sharp. Admission Elementary students, fifteen cents. High school students, twenty five cents and adults, thirty five cents.

## Tech Going to NAAIA for Seventh Time

LITTLE ROCK — The small college basketball situation in Arkansas is back to normal with Arkansas Tech riding at the top for the seventh consecutive year.

Last night, underdog Tech knocked off Southern State 70-64 to win its seventh straight NAAIA state playoff. The victory will send Tech to the national NAAIA basketball tournament at Kansas City later this month as the state's official representative.

This year's trip will mark the sixth straight time for Tech to compete in the tournament, which matches the nation's best small college basketball teams. The first time Tech won the state playoff, it was a junior college and couldn't participate in the national competition.

## Dons Have Their First Unbeaten Year

By ED WILKS

Of The Associated Press

San Francisco's Dons have their first unbeaten regular season in the bag, the National Invitation Tournament has its 12-team field wrapped up and the NAA needs but one more entry.

The Dons, defending NCAA champs, bagged their 51st straight and their 25th of the season last night, walloping St. Mary's (Calif.) 82-49.

Only the 1953-54 Kentucky club ever had been 25-0 in a regular season before.

Coach Phil Woolpert's crew will open NCAA Tournament play against UCLA—the last team to beat them—at Corvallis, Ore., March 16.

While the Dons clinched an automatic NCAA berth a while back with their second straight California Basketball Association crown, the spot reserved for the Big Seven champ was claimed just last night by Kansas State. The Wildcats smacked Kansas 79-68 to avert a possible four-way tie.

K-State, overcoming a 10-point deficit as Fritz Schneider scored 36 points for a Kansas fieldhouse record, hadn't defeated Kansas since 1952.

Kentucky was sent to the NCAA for a record eighth time yesterday as the Southeastern Conference substituted the runner-up Wildcats for champion Alabama, which has five ineligible four-year-men. Both Kentucky, only three time NCAA champ, and K-State have first-round byes along with Iowa, Houston, Utah, UCLA and San Francisco.

The remaining NCAA berth goes to the winner of the three-way playoff for the Ohio Valley Conference title, which gets under way at Louisville tonight. Tennessee Tech and Western Kentucky get it rolling with the winner facing Morehead (Ky.) for the crown tomorrow night.

Regional eliminations begin Monday in the NCAA Tournament.

The NIT, which hasn't announced pairings for the March 17-24 battle in Madison Square Garden, closed its entry list with St. Louis yesterday. The Billikens wound up in a tie for second in the Missouri Valley with Oklahoma A&amp;M, picked by the NIT Monday after the Aggies closed their season with an 18-3 record by smacking Bradley 74-40 last night.

Other NIT entries are defending champ Duquesne, Dayton, Louisville, Marquette, Niagara, Xavier of Cincinnati, Lafayette, Seton Hall and St. Francis of Brooklyn.

Frierson, Mrs. Bernice Foster, Mr. Thomas Jordan, and the Harmonettes.

## Crossett May Be Darkhorse; Nashville Out

By TOM DYCARD

HARRISON — Little Rock and Green Forest made their first steps successful ones in the state Class A Senior Boys High School Basketball Tournament here last night, and stood today as the near-things to favorites.

Little Rock's surprisingly easy 57-49 triumph over Leachville, the District 3 kingpin, and Green Forest's weird 26-20 victory over Catholic High of Little Rock put the cap on an opening day which included a deep freeze that never thawed and the emergence of a possible tournament darkhorse.

The surprise strongboy is Crossett, The Eagles, winners of the District 7 tournament, displayed team balance, height, scoring ability and defense in their 64-43 conquest of McCrory.

In other games yesterday, Rogers advanced with a 53-48 victory over Greenwood, and Forest City smacked Nashville 77-44.

Five games today will set the stage for the quarter-finals. Rogers meets Center Ridge at 2 p.m.; Augustus faces Whitehall at 3:20 p.m.; Stuttgart goes against Jonesboro at 4:40 p.m.; Lavaea takes on Green Forest at 7:30 p.m., and Emerson tangles with North Little Rock at 8:50 p.m.

Green Forest, a semi-finalist last year, spent more than half of its game with Catholic High either casually watching the Rockets freeze the ball or operating its own freeze.

The strange sight of Catholic High's John Doolittle bouncing the ball slowly in mid-court, and three Green Forest players sitting cross-legged under the basket, drew hoots of disapproval from 2,000 fans.

Catholic High, trailing 20-14 when it called a semi-halt to the game, was trying to lure Green Forest's defenders out from under the basket. The trick didn't work, but later Green Forest decided a freeze was in order to protect its slim lead, so the mid-court game of bounce the ball continued.

Only 14 points were scored in the last three quarters. Green Forest led 18-14 at the first turn, and won the game 26-20.

Ora Lee Boss scored 15 of Green Forest's points.

Little Rock's Big Eight tournament champions banked on a big inning, got it, and then slowly expanded their lead to handle the dangerous Leachville Lions with surprising ease.

William Thweatt got Leachville off to a fast start. He swiped the ball under the Little Rock basket, dribbled in the length of the court, and laid it in for a 2-0 lead. From there, the Lions moved to a 14-8 margin midway in the quarter.

The Tigers then turned the tables and Leachville never got them righted again. A field goal and two free throws by Frank Wiggins, chip-ins by Harry Vines and Marshall Day, and a field goal by Larry Whitely lifted the Tigers to an 18-14 lead at the end of the first quarter.

Norman Ward led scorers with 21 points for Leachville. Jerry Smith was high for Little Rock with 14 points, followed by Whitely with 12.

Two well-built 6-4 men, center Frank Doland and forward Charles Wiggins, provided all the control Crossett needed under the basket to handle McCrory.

Wiggins scored 28 points, hitting on layups from the post position and from the outside with set shots. He scored 10 of 14 field goal attempts, and hit 7 of 8 in the first half.

High scorers for McCrory were Tommy Burrows and Bobby Hill, each with 14 points.

Rogers came from behind to whip Greenwood in the second half. Mark Davidson, the Mountaineers' injured All-District center, came off the bench after the half to spark the winning rally. Showing signs of a twisted ankle he suffered in the district

tournament, he scored 8 points, including a field goal that tied the score and the field goal that put Rogers out front for the first time, late in the third quarter.

Steve Roberts led Rogers' scorers with 18 points. Charles Angelciti scored 20 for Greenwood.

Forest City and Nashville, two teams that threw out defense and concentrated on hitting the basket, came within 15 points of the record for single tournament game. The record of 159 points was set last year when North Little Rock defeated Magnolia 82-77.

After a nip-and-tuck first quarter, Forest City found the range and left Nashville behind for keeps. The difference most of the way was 5-10 points.

Nashville's Charles Shuffield led scorers with 22 points. Forest City's Sonny Holmes and Nashville's Hollis Ponder each scored 20.

## Stan the Man Out After Batting Title

ST. PETERSBURG, Fla. (AP) — Stan (The Man) Musial, checked the last three years after racking up six batting championships in his first 10 campaigns with the St. Louis Cardinals, has confided to friends he expects to nail down his seventh title this year.

The National League's greatest player of the last decade predicted, during one of those rare times when he talks about himself, he would hit between .30 and .350. He thinks that should be sufficient to win the batting crown and he thinks Philadelphia's Richie Ashburn and New York's Willie Mays are the players to beat.

Ashburn captured the title last year with .32, and Mays won the previous year with .35.

Declaring he felt a good deal younger than his 35 years, Musial maintained he's at his best physically since 1952—the last time he won a batting championship. He weighs 177, two pounds lighter

than when he finished the 1955 season.
